

# DELFIN Yellow hulled

Universal use for milling and feed

## Plant development and vitality:

Panicle emergence	
Maturity	
Straw maturity	delayed

## Yield structure:

Panicles/m <sup>2</sup>	
Grains/panicle	
TGW	

## Sowing:

Time of sowing	end of February until middle of April
Seed rate	locally adapted

## Straw:

Plant height	(5) medium
Lodging resistance	
Stem brackling resistance	

## Disease resistance:

Mildew	
--------	--

## Plant protection:

Fungicides	profitable under very high disease
Insecticides	follow official recommendation

## Quality:

Grading (> 2,0 mm)	
Hectolitre weight	
Kernel content
