

KWS CRESWELL

Winter Barley

KWS B105 x KWS Cassia

SEEDING
THE FUTURE
SINCE 1856

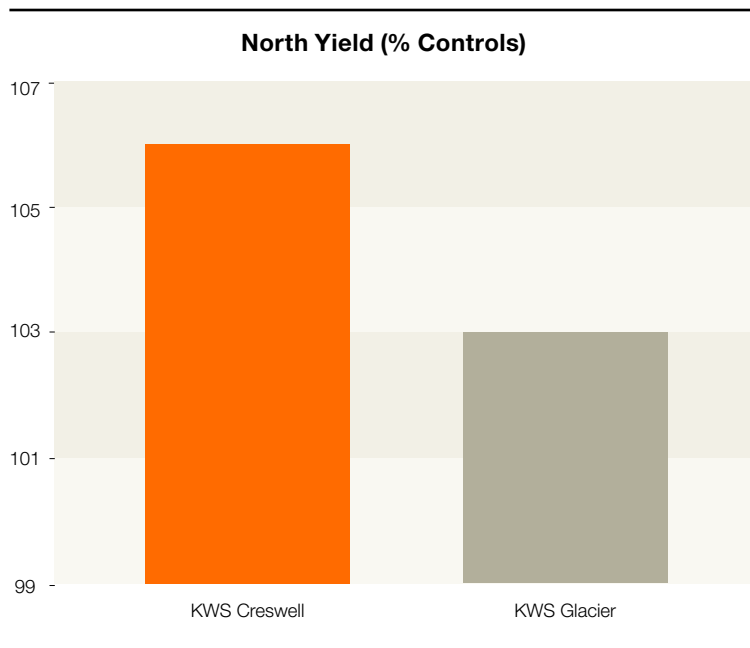

Highest yielding 2-row feed in the North

- Recommended for the North
- Short and stiff
- Early to mature
- Good specific weight

With its early maturity and ease of harvest inherited from its KWS Cassia parentage, KWS Creswell is ideally suited to the Northern farmer.

It has good rhynchosporium resistance, but net blotch needs watching. KWS Creswell will benefit from a robust fungicide programme.

	KWS Creswell	KWS Glacier
Yield (%)		
UK treated yield	103	102
North yield	106	103
Disease		
Mildew	5	3
Yellow rust	[8]	[8]
Brown rust	5	7
Rhynchosporium	6	4
Net blotch	4	7
BaYMV	R	R
Agronomy & Quality		
Lodging	7	7
Height (cm) with PGR	88	84
Maturity (+/- Cassata)	-1	-1
Sp.Wt (kg/hl)	67.1	68.8
