RGT Gravity
AHDB Recommended List 2019

Variety Data: RGT GRAVITY

VARIETY OVERVIEW:

RGT Gravity is the highest yielding Group 4 hard winter wheat on the 2019/20 Recommended List. It gained automatic promotion last autumn and is already one of the UK's biggest selling varieties, thanks to strong backing from merchants and widespread uptake by seed producers. RGT Gravity is an excellent fit for the main and late drilling slots, where it has a great future as the "farmers' choice" variety.
