Variety Data: RGT PLANET

VARIETY OVERVIEW:

RGT Planet is the joint highest yielding spring barley on the Recommended List that is fully approved for brewing. It is agronomically strong and produces excellent quality grain, traits that have helped it become the leading spring barley in the UK. It will also be the most widely grown cereal variety in the world this year. RGT Planet has become widely accepted by end users across the whole of Europe and beyond. The variety is also gaining a strong following among livestock farmers across the UK thanks to its excellent yield and stiff, plentiful straw.
