Very early to ripen

Short, stiff straw

Large seed size

PGRO Recommended List 2020, R

Honey is an early maturing, shorter, very stiff strawed variety with a more compact habit than Wizard.

The combination of short straw, exceptional standing ability and early maturity makes Honey ideally suited to higher fertility and moisture production areas and also the North and West of the UK.

Honey produces large, attractive grain with relatively high protein content, suitable for the export market.

Yield as % control	Honey	Wizard	Tundra
UK Treated Yield (%C, 5.01 t/ha)	95	98	103
Agronomics			
Flower colour	C	C	C
Earliness of ripening	7	6	6
Shortness of straw	8	7	7
Standing ability at harvest	8	7	7
Quality			
1000 seed weight (g)	710	697	670
Protein content (% dry)	26.2	26.8	26.2
