

LG Cartouche

Highest protein content available

LG Cartouche offers the highest protein content available on the spring bean PGRO Recommended List 2019. It is a high yielding, pale hilum spring bean with good agronomic characters, meeting the requirements for both the human consumption and feed markets. The variety has shown consistency of yield performance over differing seasons and has good agronomic attributes, with short, very stiff straw.

Strengths

- High yielding, pale hilum spring bean
- Meets requirements for premium export market for human consumption
- Good yield consistency
- Good agronomic attributes
- Very strong standing ability at harvest
