

# KWS JACKAL

Winter Wheat

KWS Santiago x KWS W177

SEEDING  
THE FUTURE  
SINCE 1856

## The call of the North!

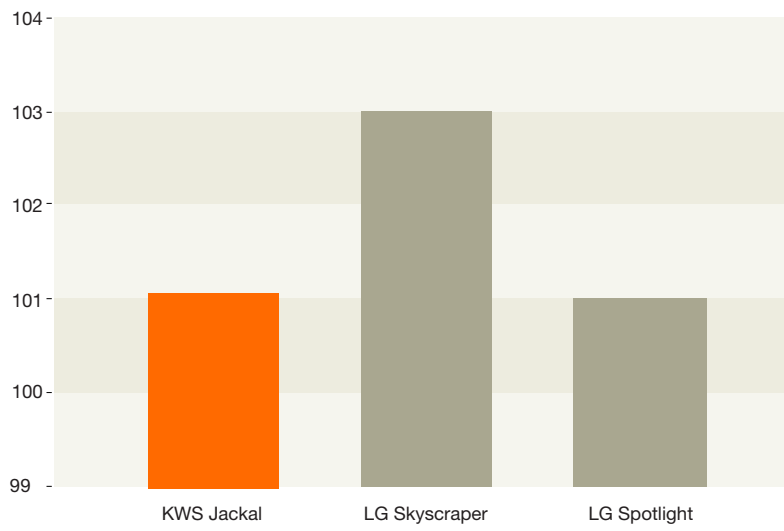

- High yielding distilling variety for the North
- Good disease ratings with OWBM resistance
- Short-medium height with stiff straw

Recommended for the North, KWS Jackal has good yield potential, particularly in the North and East.

KWS Jackal offers growers a range of end use market options, including, distilling, soft milling and bioethanol where available. Thanks to its HFN (185) it is ideally suited to the distilling market, whilst its protein levels find it favour with soft milling homes. For Growers drilling early and looking to supply distilling homes, KWS Jackal represents the ideal choice this season.

What makes KWS Jackal stand out within its sector is its consistency across regions, soil types and rotational position.

Northern Yield (% Controls)

KWS Jackal	
Yield (%)	
UK	100
East	100
West	100
North	101
Disease	
Mildew	7
Yellow Rust	9
Brown Rust	5
<i>S.tritici</i>	4.8
Eyespot	4
Fusarium	6
OWBM	R
Agronomy	
Lodging (+PGR)	7
Lodging (-PGR)	7
Height (cm)	87
Ripening (days +/- Skyfall)	+1
Sp. Wt (kg/hl)	75.5
HFN	185
