

## THE GO-TO HYBRID RYE:

SU Pluralis is the new hybrid rye offering UK end market flexibility with characteristics particularly suited to Scottish conditions. Fast ear emergence means the crop establishes early; important in a compressed season. Additionally, strength on light and sandy soils means excellent standing ability in fluctuating weather conditions. With fast-growing potential and high methane content from whole crop harvests, SU Pluralis is the biogas choice north of the border. When timing is everything, SU Pluralis is your go-to hybrid rye.
