

LG Skyscraper

High yielding winter wheat

Nabim Group: Group 4

Market Options: UK Distilling & Feed

OWBM Resistance: Yes

Sowing Date: Normal & Late

Rotational Position: First Cereal, Second Cereal & Continuous

Soil Type: Light Soils & Heavy Soils

LG Skyscraper is a high yielding winter wheat on the [AHDB Recommended List 2022/23](#) and offers a combination of strong agronomic merits and grain quality attributes, giving growers maximum return on their investment.

LG Skyscraper has a strong disease resistance profile, showing good resistance for both Yellow Rust and *Septoria tritici*. The variety also offers the additional benefit of OWBM resistance; an important trait increasingly valued by growers due to restrictions on insecticide products.

Strengths

- High yielding winter wheat

- OWBM resistance
- Strong disease resistance profile
- Taller strawed variety
- Offers distilling market opportunities
- Good grain quality
