

# Mascani

## WINTER OAT

AHDB  
RECOMMENDED

• No 1 UK winter oat variety

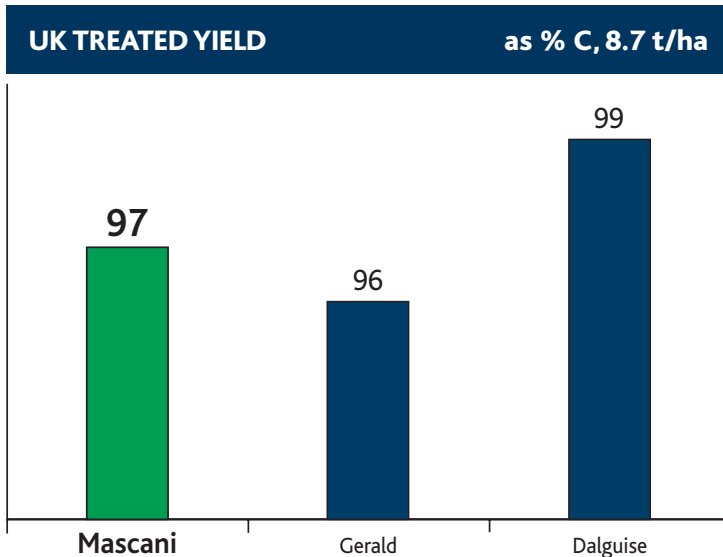

• Superb grain quality

• Large grains

Mascani is the most widely grown winter oat in the UK, and is well established as the favourite of millers and growers alike.

It is a stiff strawed variety with excellent resistance to mildew and good resistance to crown rust and so is of particular interest to growers in susceptible areas.

With its exceptionally high kernel content, excellent specific weight, large grains and low screening losses, Mascani remains the leading top quality, popular milling variety.

### GRAIN QUALITY

Kernel content (%)	76.6
Specific weight (kg/hl)	53.1
Screenings % (<2.0mm)	1.8
Kernel colour	white

### AGRONOMICS

Resistance to lodging (1-9)	6
Straw length (cm)	117
Ripening (days $\pm$ Mascani)	0

### DISEASE RESISTANCE

Mildew	6
Crown rust	5
